Dear John

Thank you for a very interesting and informative presentation at Sudborough House to the psychiatric medical staff in May 2009.

There was a varying range of experience with drug and alcohol issues in the room but you were able to engage with all of us quite successfully and cover a range of issues.

More importantly you showed us all that there is a person underneath the "addiction" who with adequate help can go on to lead a productive life.

Yours sincerely

**Dr Shebu Lukose**
